Cambridge Massachusetts is located in the historical center of our nation's history. We are in the center of our country's development and have helped to shape the philosophy, values, and experiences we all share today.

We,
the students of the
Class of 2007, are
in the center of
things for CRLS.
We have learned,
grown, smiled,
and made
friends while
striving for the
betterment of
ourselves.

We are the focus group for
national marketers, as well as, the underclass.
We are the leaders, captains, and club presidents. We
are the ballers of 2007 and we are flying high out of
here.

Introduction

David Brinkley

"A successful person is one who can lay down a firm foundation with the bricks that others throw at him or her."

"Having a good educational background is the key to success. No matter how much negativity is thrown at you, keep going for what you're striving for. In due time it is guaranteed you will achieve success and reach for your dreams."

-Jacinda Dorleans

"No matter how much others doubt you, you should never doubt yourself. Believing in yourself is what counts most. Never settle for what you can live with, reach for what you can not live with out."

-Camara Gosmon

welcome back to CRLS!

In the fall of 2006, we returned to find many changes at CRLS. The entrance has been torn up with a new ramp added, the "pit", a main cafeteria hallmark, has been filled and covered with green flooring, homeroom is back, Dr. Chris Saheed is our new Principal, and Bobby Tynes is our new Assistant principal. New faces add to the mix, but we know, if we keep looking, those old friends will soon pop into view...

With only one year left, seniors are ready to be serious!

Trying to figure out why homeroom comes after 1st block?

CRLS students still in the summer mode gather to meet up with friends and begin the new school year!

Congratulations to The Class of 2007 !!
Cambridge Teachers FCU

Reality sets in as we move to find our new classrooms.

Looking out for friends we have missed.

Incoming freshman gather in the auditorium for their introduction to falcon life!

He must be a senior: look how cool!

New Principal Dr. Chris Saheed waits to welcome students to the new school year!

Sophmores meet to catch up on summer and plan for a busy year!

cambridge reads

"Mountains Beyond Mountains" author Tracy Kidder shares the CRLS stage with Dr. Paul Farmer, the infectious disease specialist whose work is chronicled in the novel.

Dr. Farmer is a member of Partners in Health, an international organization committed to diminishing disease in developing countries.

Partners in Health (pih.org) has created the community based clinics where Dr. Farmer has been able to do his work. The first, Zanmi Lasante in Haiti, began as a small community clinic which has grown into a large Sociomedical Complex, featuring a 104-bed, full-service hospital, operating rooms, specialized clinics, and a dozen schools. To celebrate Dr. Farmer's work, members of the Haitian Club performed for the audience.

hello santa!!

Young Ray provided the passport
and travel accommodations for
Santa to make a quick stop @ CRLS.

He graced us with a special
appearance during lunch & took
notes on those being naughty & nice!

Santa's Rindge Poem

He knows if you've been sleeping in

Student Government promotes student initiatives and involvement in the school and community related affairs with the ultimate purpose of developing leaders who will represent the student body at large and their ideas. Student members participate in policy discussions and community service, plan school-wide events including Homecoming, school dances, and other spirit events, fundraise for the whole student government and their respective classes, and publicize opportunities for students.

CRLS is extremely proud of our Boys Varsity Falcons Basketball Team for defeating Lowell in the Northern Massachusetts Semifinals.

The Falcons went all the way to the State Semifinal played at TD Banknorth Garden against Boston College High School. Although the outcome was not exactly as we hoped we are still very proud of the Boys Varsity Basketball Team for all their talent and hard work.

"I am absolutely proud of the work my team did in the end; especially the senior leadership. I want to give a special thanks to the school for their spirit and support of the team. Great finish guys!"

miss 1000!!

January 26, 2007:

Senior and Captain Kyara Weekes
throws her way into CRLS history by
scoring her 1000th point
in a CRLS uniform.

Coach Leslie Davis:

"Kyara Weekes was one of four ladies in CRLS's history to break the 1000 point plateau. Kyara has played for four years on varsity and has been one of the most talented players I have ever had in my 18 years of coaching. I very much look forward to seeing just how far this game will take Kyara in the future."

Super Student

Thomas Sullivan receives special recognition from Dr. Saheed as a finalist for the National Merit Scholarship.

Pseudo Big Sister!

Senior Allysa Guzman was acknowledged by Dean Damon Smith and her peers during our winter x-block meeting for her citizenship in sticking up for a freshman student who was being picked on!

The **X-Block** provided CRLS students the time to meet as classes to salute each other, learn important information, and of course, complete some paperwork!

US SHARES SET RECORD HIGH

U.S. stocks rose to a record high on October 18 when the Dow Jones Industrial average passed 12,000 for the first time in history. However, as Wall Street celebrated this new benchmark, market experts were skeptical. The record-high is reportedly overrated—experts caution that a few rising stocks do not indicate the actual status of the stock market or economic growth.

FIRST FEMALE SPEAKER

This year marked a historic moment in the House of Representatives. Nancy Pelosi (D-Calif.) was elected America's first female Speaker of the House. Upon taking the floor, Pelosi proclaimed, "This is a historic moment, for Congress, and for the women of this country. It is a moment for which we have waited more than 200 years." Pelosi plans to take on the broadest ethics and lobbying revision since the Watergate era.

WHO SELECTS NEW LEADER

Bird flu expert Dr. Margaret Chan was selected by the World Health Organization (WHO) to be the next director-general. Dr. Chan's expertise was highly valued by the WHO. She confronted the first human outbreak of the avian flu in 1997 and she was credited with successfully defeating Hong Kong's 2003 outbreak of severe acute respiratory syndrome (SARS). Chan was the first Chinese national to be selected for such a high-ranking U.N. post.

A DAY WITHOUT IMMIGRANTS

May 1, 2006, marked A Day Without Immigrants in select cities across the nation. Organizers of the event hoped that the day would impact restrictions on immigration by exposing the country's reliance on immigrant workers. Chicago had one of the largest turnouts—about 300,000 demonstrators marched downtown.

VERDICT REACHED FOR SADDAM

Almost three years after his capture, former Iraqi leader Saddam Hussein was sentenced to death. Hussein was found guilty of committing crimes against humanity. The verdict in the Hussein trial was delivered on November 5, 2006—only two days before the U.S. mid-term elections—and the execution occurred on December 30, 2006.

HOPEFUL NEGOTIATIONS WITH NORTH KOREA

U.S. Assistant Secretary of State Christopher Hill traveled to North Korea to discuss the six-party talks, which included North Korea, the United States, Japan, South Korea, China and Russia. The talks were in response to North Korea's October 9 nuclear test, and focused on negotiations for North Korea to dismantle its nuclear weapons program in exchange for aid.

PRESIDENCY BID HEATS UP

Senators Barack Obama (D-Ill.) and Hillary Clinton (D-N.Y.) announced their intentions to vie for the 2008 Democratic nomination for the presidential elections. Both would represent a landmark "first" for the United States: Obama could be the first African American president and Clinton could be the first female U.S. president.

E-COLI IS THE ENEMY

According to a statement made by the U.S. Food and Drug Administration, September's E-coli outbreak in spinach was traced to contamination on four California ranches. The outbreak caused 200 people to become ill across 26 states and resulted in three deaths. Several months later, the spinach industry was still fighting to recover.

THE BIG APPLE BANS TRANS FATS

In December, the health department ordered New York City's nearly 25,000 restaurants and countless street vendors to cease the use of trans fats. According to the health department, purging trans fats in New York would save a minimum 500 lives per year, with a possible maximum of 1,400 lives saved. Lawmakers in other large cities such as Chicago plan to follow NYC's healthy example.

FAREWELL TO FORD

The nation said goodbye to 38th U.S. President Gerald Ford. Ford was the oldest living president before he died at the age of 93. He became President of the United States in 1974 after Richard Nixon's resignation.

EVERYDAY HEROES ■ EVERYDAY HEROES ■ EVERYDAY HEROES

Wesley Autrey was awarded the Bronze Medallion, New York City's highest citizen award, for saving the life of a 19-year-old student who was suffering from a seizure. Autrey was standing on the subway platform with his two young daughters when Cameron Hollopeter fell onto the tracks. Autrey courageously jumped on top of Hollopeter to shield him from an oncoming train. Wesley Autrey is living proof that everyday heroes do exist.

Eugenia Dodson of Coral Gables, Fla., earned hero status for donating her life savings of \$35.6 million dollars to diabetes and cancer research upon her death. While she could have afforded to live in luxury, she chose to live simply and reserve her fortune for a meaningful cause. Dodson's gracious contributions will help to fund research and save the lives of many.

TRAGEDY STRIKES LANCASTER COUNTY

Violence rocked a one-room schoolhouse in Pennsylvania when Charles Carl Roberts barricaded himself and several students inside the Amish school. The hostage situation resulted in the deaths of five girls and the gunman, who took his own life. The Amish community tore down the school so that the site will remain a quiet pasture.

VETERANS HOSPITAL UNDER FIRE

Reports of substandard living conditions at the Walter Reed Army Medical Center initiated deeper investigations into the entire military health care system. During hearings, Congress learned of bureaucratic delays, unsanitary housing, and lax or poor treatment at Walter Reed. President Bush ordered a comprehensive review of the conditions, and he named Senator Bob Dole and former Secretary of Health and Human Services Donna Shalala to lead the investigation.

NASA REVIEWS SCREENING PROCESS

Due to the events surrounding Navy Capt. Lisa Nowak's attempt to kidnap romantic rival Colleen Shipman, NASA reviewed its psychological screening process for potential astronauts. In the past, the psychological evaluations focused on identifying red flags to rule out candidates. The NASA review emphasized changing the screening criteria to designate only the best candidates for space missions.

EXECUTIVE GUILT

Former Enron Chief Executive Jeffrey Skilling and founder Kenneth Lay were found guilty of conspiracy and fraud after four years of investigation, testimony and jury deliberations. The men were convicted for lying to investors and the public about the financial health of Enron, before the company collapsed in 2001. Lay, 64, died in July of coronary disease while he awaited sentencing. Skilling was sentenced to 24 years in prison.

NEW TEST FOR CITIZEN HOPEFULS

A new exam for citizenship features questions that focus on concepts of democracy, and the rights and responsibilities of citizenship. Several interest groups provided input for the pilot test, including immigrant advocacy groups. The new exam is expected to be implemented nationwide in the spring of 2008.

A JOYOUS RETURN

After four long years, Shawn Hornbeck reunited with parents Craig and Pam Akers. Shawn disappeared in 2002 at the age of 11, but recent searches for 13-year-old Ben Ownby led to the discovery of both missing boys. They were found in the Kirkwood, Mo., home of Michael Devlin, 41. The boys returned to their jubilant families and Devlin faced kidnapping charges.

CLOSE CALL FOR CHENEY

A suicide bomber attacked the entrance to the main U.S. military base in Afghanistan while Vice President Dick Cheney was there for a visit. Cheney stayed at the base after bad weather forced him to postpone his trip to the Afghan capital. A Taliban spokesman claimed Cheney was the target of the attack. However, U.S. Major William Mitchell said Cheney was not near the actual site of the explosion at the entrance because he was safely within the nearly impenetrable compound.

FOUR YEARS IN IRAQ

American troops have been in Iraq since 2003 and President Bush stated that we are making "gradual but important" progress there. However, the progress was not enough to convince the Democratic-controlled Congress to support Bush's request for an additional 21,500 troops and a \$100 billion war spending bill. President Bush maintained that U.S. involvement in Baghdad has resulted in "encouraging signs."

UK
PULLS
TROOPS

Withdrawing 2,000 British troops from Iraq may be one of Prime Minister Tony Blair's final legacies. The Prime Minister has announced his planned retirement for summer 2007, and bringing troops home was likely his last major operation. Blair's decision appeared to signal the beginning of the end for UK military involvement in Iraq.

KEVORKIAN MAKES PAROLE

Michigan state Corrections spokesman Leo Lalonde announced that Jack Kevorkian will be paroled from prison in June 2007. Kevorkian reputedly assisted in at least 130 suicides during the 1990s; he was imprisoned in 1999 for his role in one of the last

deaths. The ailing 78-year-old served 8 years of his 10-25-year sentence, and his attorneys reported that he has less than a year to live due to his own deteriorating health problems.

BORAT—NAUGHTY OR NIIICE?

British comedian Sacha Baron Cohen scored a surprise hit with the spoof documentary, *Borat: Cultural Learnings of America for Make Benefit Glorious Nation of Kazakhstan*.

The movie made an unexpected \$100 million at the box office in the United States, but the film has sparked controversy over Borat's antics and the portrayal of the country of Kazakhstan. It has also resulted in several lawsuits against 20th Century Fox and One America Productions.

BUFFET'S LEGENDARY GIFT

Warren Buffet, the world's second richest man, announced that he will begin giving away his \$44 billion fortune to five philanthropic foundations this year. The Bill & Melinda Gates Foundation will receive the bulk of Buffet's wealth because its philosophies are in line with Warren's ideals. Buffet, 75, always planned to share his fortune with charitable organizations, but he decided to start during his golden years as opposed to leaving behind a huge estate upon his death.

EVERYDAY HEROES ■ EVERYDAY HEROES ■ EVERYDAY HEROES

Marvin L. "Hub" Nothen left Baylor University in 1929, when he was only one credit short of graduation. It was during the Great Depression and Nothen had to work in order to help his family. Nothen's selfless act did not go unnoticed. In 2006, Baylor University presented the 100-year-old with a Baylor diploma, cap and gown, and his official transcript. Although it was certainly unexpected, Marvin appreciated the honor of finally earning his degree.

Jaimen Ortiz and his quick thinking likely saved the life of a two-year-old girl. Two toddlers had been playing near an open window, when one of them fell and was hanging from the second-story window sill. Ortiz jumped a fence and ran to the building in time to catch the falling girl in his arms. As the father of a five-year-old son, Ortiz was a humble hero and hoped that anyone would help a child like he did. The County Board presented him with a certificate of recognition for heroism in Arlington, Va.

DISCOVERY LIGHTS UP THE NIGHT

The Space Shuttle Discovery successfully lifted off from the Kennedy Space Center at 8:47 p.m. EST on December 9. It was only the 29th evening launch out of NASA's 117 shuttle flights. Discovery's first flight took place on August 30, 1984, and it has now successfully completed over 30 missions. Discovery traveled to the International Space Station to make repairs and landed back on Earth 13 days later.

SHRIMP SAVE LIVES

Who knew that tiny shrimp can save a soldier's life? I SAM Medical Products of Portland, Ore., developed a pourable bandage called Celox that is made of Chitosan, a structural element of shrimp shells. Celox is poured directly into a bleeding wound and applied pressure causes the positively charged Celox granules to bond with negatively charged red blood cells. The Celox creates a gel-like mass that stops bleeding. Since Celox is useful for both surface injuries and major wounds, it is planned to hit war zones by the end of 2007 with FDA approval.

NEW MEANING FOR IRON STOMACH

Based on Dr. Martin Wikham's model, scientists constructed the world's first artificial stomach out of materials able to withstand corrosive acids and enzymes found in the human gut. The device may help in the development of super-nutrients that could fool the stomach into triggering a "full" response. Dr.

Wikham's artificial stomach incorporates the physiological elements of digestion including the contractions that break up food and move it along, just like human digestion. "It is so realistic that it can even vomit," adds Wickham.

SPIDERS HELP HUMANS HEAL

Scientists found that spider silk could be used to create fine sutures for surgeries, particularly to repair injuries to nerves or eyes without scarring. Researchers at Tufts University also discovered that spider webs could be used for regenerating ligaments in common knee injuries such as ruptured ACLs.

HAPPY BIRTHDAY, HUBBLE TELESCOPE

2006 marked sixteen years since the Hubble Space Telescope's launch in 1990. Although sixteen years old is young for humans, it is quite old in telescope years. To celebrate Hubble's sweet

sixteen, NASA and the European Space Agency released Hubble's awe-inspiring photos of Messier 82, a galaxy located 12 million light years away in the constellation Ursa Major.

IMPRESSIVE PROGRESS IN THE FIGHT AGAINST CANCER

For the second year in a row, the cancer death rate in the United States has declined. According to the American Cancer Society, early prevention and treatment are credited with the decrease. In addition, the U.S. Food and Drug Administration approved Gardasil, the first cancer vaccine, in June. The vaccine protects against cervical cancer, the second most common cancer in women.

MICKEY AND FRIENDS SHAPE UP

Disney developed new nutritional guidelines that limit sugar, fat and calories for products that bear a Disney character or logo. As a result, Mickey Mouse, Buzz Lightyear and other Disney friends will no longer appear on packages of sugary cereals, high-calorie snacks and other junk foods. Disney also plans to improve the nutritional value of meals served at its U.S. theme parks.

SAVING LIVES BY A STRAW

A new invention called the LifeStraw was introduced to provide clean drinking water for those in need. The life saver was designed to work just like a drinking straw: the water passes through the disinfecting resin and bacteria are destroyed on contact. The LifeStraw was ready to help the more than 1 billion people worldwide without clean water to drink.

COMPUTER VISION

A legally blind poet at the Massachusetts Institute of Technology designed a "seeing machine" that allows people with limited vision to see faces, read or study building layouts. The device plugs into a personal computer, uses light-emitting diodes to project images into a person's eye, and grants impaired users the ability to see words or pictures. The device only works for people who have retained some living retina cells.

SCIENCE EXPLAINS YOUR MORNING HAZE

The intense grogginess that you may feel when your morning alarm goes off actually has a scientific definition and name: sleep inertia. According to a study published in the *Journal of the American Medical Association*, sleep inertia can cloud the brain even more than a total lack of sleep. This common condition can affect any healthy human by limiting the ability to think clearly.

LADY LIBERTY GOES GREEN

The Statue of Liberty's exterior is green due to the oxidation of her copper, but she's become "green" all the way through. Lady Liberty's torch is now lit by environmentally friendly "green" power generated from windmills. You won't see a windmill if you pay the Lady a visit—the windmills are located in Pennsylvania, and their power is pumped into a national energy grid. The government then taps into the energy grid to buy the power.

BACTERIA DEFENDERS

A tooth-friendly strain of the bacteria *L. anti-caries* (found in

yogurt), proved to be helpful—it prevented decay from sticking to tooth surfaces by forcing decay to clump together. Based on this information, developers worked to create new products such as chewing gum, toothpaste and mouthwash. Researchers also planned to test the special bacteria's effectiveness against the odor-producing bacteria that dwell in underarms and feet.

GOING WHERE NO WOMAN HAS GONE BEFORE...

Iranian-born U.S. businesswoman Anousheh Ansari became the first female space tourist on September 18, when she blasted off on a Russian Soyuz rocket. Ansari joined Russian cosmonaut Mikhail Tyurin and U.S. astronaut Miguel Lopez-Alegria for a 10-day trip to the International Space Station. It is rumored that Ansari paid at least \$20 million for her space adventure.

ROVERS STILL ROVING

NASA's two Martian rovers, Spirit and Opportunity, have now been roaming the planet for four years—12 times longer than initially expected. The rovers' list of accomplishments includes finding evidence that water once drenched a region on Mars, locating metallic meteorites, and analyzing rock layers to determine Martian environmental changes. The two rovers have returned over 169,000 images to Earth for study and research.

POLAR BEARS ON THIN ICE

Higher average air and water temperatures caused sea ice to shrink—bad news for the polar bears. U.S. Secretary of the Interior Dirk Kempthorne expressed concerns that the polar bears' environment may literally be melting. The bears rely on the ice to hunt for food, and the decrease in arctic ice has resulted in a possible threatened species classification for polar bears.

MANATEES ON THE MOVE

Manatees are an endangered species that prefer the warm, coastal waters from Alabama to South Carolina. However, they have been sighted along the East Coast all the way up to Rhode Island. Three wayward manatees were captured in Jacksonville, Fla., and taken to Sea World Orlando after their capture. They were given "milkshakes" consisting of gruel and monkey chow during their recuperation.

MIRACLE BABY BEATS ODDS

Amilla Taylor's entrance into the world was much earlier than planned—she was the youngest premature baby ever to survive. Amilla was born at 21 weeks and 6 days old, and she weighed a mere 10 ounces. Although doctors administered drugs to accelerate the development of her lungs and vital organs before delivery, experts were still amazed that she made it. "This is an extremely rare event, any way you look at it," said Dr. Rod Phibbs of the University of California-San Francisco.

WEATHER EXTREMES

Summer heat waves in California, windstorms that spawned heavy rains and flash floods in the Southeast, extended drought in Texas, crippling snowstorms in the Plains, and killer winds across Europe were all closely correlated with rising greenhouse-gas emissions, or global warming. In response, a United Nations commission evaluated global warming and its impact around the world based on health, agriculture and the economy.

RED SEA SPLIT

The Red Sea was formed during a 30-million-year rifting

process between Africa and Arabia. Satellite images show the Arabian tectonic plate and the African plate are on the move away from each other. The movement is due to a series of earthquakes that occurred in September along the East African Rift in Afar, Ethiopia. Several million years from now, the long-term rifting process could cause this split to eventually create a huge, new sea. For now, scientists can monitor the rupture in real (slow) time from satellites.

WORMS AT WORK

Employees in the Los Angeles public works building hardly noticed their new co-workers. The sign above their work area read, "Quiet Please. Worms at Work." California encourages employees to bring worms to work so that the slimy laborers can chew up apple cores, sandwich scraps and other lunch leftovers to produce compost. Employees were invited to take the compost for use as an all-natural fertilizer in their gardens and on houseplants.

DIGGING DEEP

After 40 years, scientists finally managed to make significant progress with the Integrated Ocean Drilling Program (IODP). The researchers managed to drill nearly a

mile into the middle of the Atlantic Ocean along the Mid-Atlantic Ridge to collect the first-ever samples of each crust layer. These samples will provide valuable information on the composition of the Earth and help scientists determine if remote sensing tools have accurately described the Earth's complex layers.

PLUTO A PLANET NO MORE

Leading astronomers developed a new definition of planet that removed Pluto from the planetary line-up. Pluto was reclassified as a Dwarf planet because, unlike Earth and the seven other planets, it has not cleared the area in its orbit of other large objects.

PANDA BABY BOOM

A record 30 surviving giant pandas were born at zoos and breeding centers around the world in

2006, including the rare birth of twins at a zoo in western Japan. Natural reproduction is rare among pandas in captivity. Only an estimated 1,600 to 3,000 giant pandas remain in the wild today, with 185 living in captivity.

BIONIC CAT EYES TO THE RESCUE

Dr. Kristina Narfstrom's bionic cat eyes made strides to help reverse the damage that retinitis pigmentosa, an inherited retina disease that results in blindness, can cause to human eyesight. Dr. Narfstrom began by creating special silicon chips that were implanted in the eyes of partially blind cats. Since the structures of cat and human eyes are similar, Dr. Narfstrom could enhance the chips'

performance by studying how the chips help the cats' vision improve. The chips have shown encouraging results by improving human eyesight or at least slowing the progression of retinitis pigmentosa.

ENVIRONMENT ■ TIPS FOR THE ENVIRONMENT ■ T

You can positively impact the environment by making just a few small changes in your daily life! Check out these tips:

Recycle: Whenever possible, check all packaging for recycling information and take the time to do it. Also, try to buy reusable products and items with minimal packaging.

Bag Bags: Bring your own tote bag when you go shopping, or don't request a plastic bag unless it's absolutely necessary.

Reduce Driving: Carpool with your friends or take the opportunity to get some exercise by walking or biking. If you do drive, make sure your car's tires are properly inflated in order to use gas efficiently...and avoid flooring the gas pedal.

Plant a Tree: Get together with your friends or family and plant a tree. Trees absorb carbon dioxide and give off oxygen—an integral part of Earth's natural cycles.

WIMBLEDON GRANTS EQUAL PAY

The tennis world's glass ceiling was finally smashed on February 22 when Wimbledon officials announced equal pay for male and female tennis champs. In the past, officials defended the females' smaller

paychecks with claims that women play best-of-three set matches opposed to the males' best-of-five set matches—but the match parameters were set by tournament officials and not the athletes. The 2007 tournament will be the first in Wimbledon history that rewards equal championship pay for men and women.

MIAMI HEATS UP NBA FINALS

IDITAROD CHAMPION HAS NO FEAR

Rachael Scodris of Bend, Ore., finished Alaska's Iditarod endurance challenge at the young age of 21.

Finishing the Iditarod is an astounding accomplishment for any athlete—according to the race spokesman, more people have climbed up Mount Everest than have finished the Iditarod. The dog sled race begins in Anchorage and ends after spanning 1,150 icy miles across Alaska to Nome. Rachael's accomplishment was not only impressive due to her young age, but also because she is legally blind.
